1. The following is an examiner's statement of reasons for allowance:

For claims 1-30, the prior fails to teach a combination of  
a resynchronization table for storing a plurality of connection states  
corresponding to a plurality of interconnected network elements, the  
interconnected network elements forming a network path in the line layer  
of the network; and

an interface for providing access of a first controller to the connection  
states of the resynchronization table, the first controller included in the  
control layer which is coupled to the line layer for monitoring network  
traffic communicated therein;

wherein resynchronization of the line layer and the control layer is established  
after the failure using the first controller to propagate the connection states for use by  
other controllers of the control layer.

Any comments considered necessary by applicant must be submitted no later  
than the payment of the issue fee and, to avoid processing delays, should preferably  
accompany the issue fee. Such submissions should be clearly labeled "Comments on  
Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to  
applicant's disclosure.

Ashwood et al. (2005/0198312) is cited to show a system which is considered  
pertinent to the claimed invention.
